

CERPASSRX®

## PA Pulse: The Heartbeat of Your Patients' Prior Authorizations

Real-time tracking from CerpasRx to keep your patients informed, every step of the way.

# PA PULSE

PA Pulse from CerpasRx is a tracking tool that keeps your patients updated on the status of each prior authorization (PA). Designed to streamline communication, PA Pulse reduces administrative burdens, providing faster approvals and minimizing status follow-ups.

FOCUSED

### ♥ Real-Time Authorization Status

Patients receive timely notifications at every stage of the prior authorization process, ensuring they are informed when an authorization is completed and whether any additional actions are required.

ON

### ✗ Fast Denial Notices & Appeal Options

If denied, PA Pulse informs patients immediately, offering guidance on appeal options for quick patient support.

YOU

### ➔ Flexible Update Preferences for Your Patients

With PA Pulse, your patients can choose how they receive status updates (email, phone, or text), keeping them well-informed and reducing calls to your office for status inquiries.
