

# **PERFORMANCE FORMULARY**

## **Preferred Drug List**

**2025 Performance Formulary**

The following list includes some of the most commonly prescribed medications and represents a condensed version of the full drug list (formulary) that supports your prescription benefit plan. This list is not comprehensive and does not guarantee coverage. Whenever appropriate, you are encouraged to ask your doctor about generic alternatives, as they may offer a lower-cost option.

**PLEASE NOTE:** Brand-name drugs may move to non-formulary status if a generic version becomes available during the year. Additionally, not all medications listed are covered by every prescription benefit plan. Be sure to review your benefit materials for details about which drugs are covered and what your copayments may be. If you have questions about your specific coverage, please call the number printed on your member ID card.

**Drugs listed in CAPS are Brand Drugs and generic products are listed in lowercase letters.**

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | <sup>^</sup> Multisource brand exclusion – The generic equivalent of this brand-name medication is covered under your plan. FDA-approved generic medications meet strict standards and contain the same active ingredients as their appearance. As new generic medications become available, additional multisource brand products may become excluded.
